-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Specification***

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because the terms "means" and "said" used throughout the abstract. Correction is required. See MPEP § 608.01(b).

3. The disclosure is objected to because of the following informalities: On page 9, line 1, the word "ach" appears to be a typographical error.

Appropriate correction is required.

### ***Claim Objections***

4. Claims 12, 36-38 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

- a. Claim 12 depends from claims 3-13. Claim 13 is not a previous claim.
- b. Claim 36 does not depend from a previous claim.

Art Unit: 2851

c. Claim 38 depends from claim 37, which depends from claim 36, which depends from claim 38. (i.e, claim 38 → claim 37 → claim 36 → claim 38)

5. Claims 4 and 8-39 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4 and 8-39 have not been further treated on the merits.

***Allowable Subject Matter***

6. Claims 1-3, 5-7 and 40-41 allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

The prior art does not teach or disclose a maskless lithography system that converts pattern data into a modulated light beam, optically couples the modulated light beam to a modulation means of the lithography system, and controls the modulation means by the modulated light beam.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Gil, et al. (US 2004/0124372), Mei, et al. (US 6,370,867), Jain, et al. (US 6,312,134) and Ishikawa (US 6,251,550) each disclose a maskless photolithography system.
